Hey, I'm **Ziad**! Time to talk money, routines, and smart decisions.

Everyday decision-making in English: routines, money, requests, and advice -- the language your child needs to navigate real choices, not just describe the world around them.

By the end of this level, your child can:

- Describe routines with frequency words (always, never, how often)
- Talk about sequence (before and after)
- Ask politely and talk about possessions
- Ask about prices and talk about saving money
- Make polite requests ("I'd like...")
- Give and receive advice ("you should")
- Talk about future plans and the wider world

Sample idioms your child will discover

Time flies — Time passes really quickly.

Save for a rainy day — To save money for a time when you might really need it.

Burn a hole in your pocket — Money that you really want to spend right away.

A tip for home: the Hub isn't graded and has no quiz -- it's a calm space for your child to browse freely.

Squad Budget, this level's bonus game

A shopping-list budgeting game. Your child starts with a coin budget and must find and "buy" each item on an Arabic shopping list.

How to play

1. An Arabic shopping list appears on the left, and several priced market stalls appear on the right, each labeled in English.
2. Your child listens for the word Lumi says, then taps the matching stall to "buy" that item.
3. A correct purchase checks the item off the list, adds it to a running receipt, and deducts its price from the coin budget.
4. A wrong tap costs nothing -- no coins are lost, they simply try a different stall.
5. By the end, the whole shopping list is checked off and the receipt shows everything "bought."
