Ziad

Hey, I'm Ziad! Time to talk money, routines, and smart decisions.

Level 4

Smart Choices

Ages 11-13

CEFR A1

20 lessons

164 words

Independence and daily decision-making: routines, money, preferences, and the question forms that let your child ask about the world around them.

By the end of this level, your child can:

- Ask and answer Present Simple questions
- Describe frequency and routines in detail
- Use object and possessive pronouns
- Ask "how much" and "how many"
- Form superlatives ("the biggest", "the best")
- Make polite requests and give advice

Sample vocabulary

wake up يستيقظ

homework واجب منزلي

holiday عطلة

earbuds سماعات أذن

ingredients مكونات

lend يقرض

prefer يفضل

habit عادة

support يدعم

nervous متوتر

Grammar topics (12)

- Present Simple Questions (Do / Does)
- Present Simple for Routines
- Adverbs of Frequency
- Prepositions of Time

Friends & Social Life

My Room & Things

School Life

Sports & Competition

Money & Shopping

Everyday Life

Sample idioms your child will discover

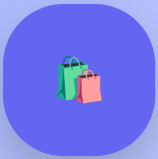

Time flies — Time passes really quickly.

Save for a rainy day — To save money for a time when you might really need it.

Burn a hole in your pocket — Money that you really want to spend right away.

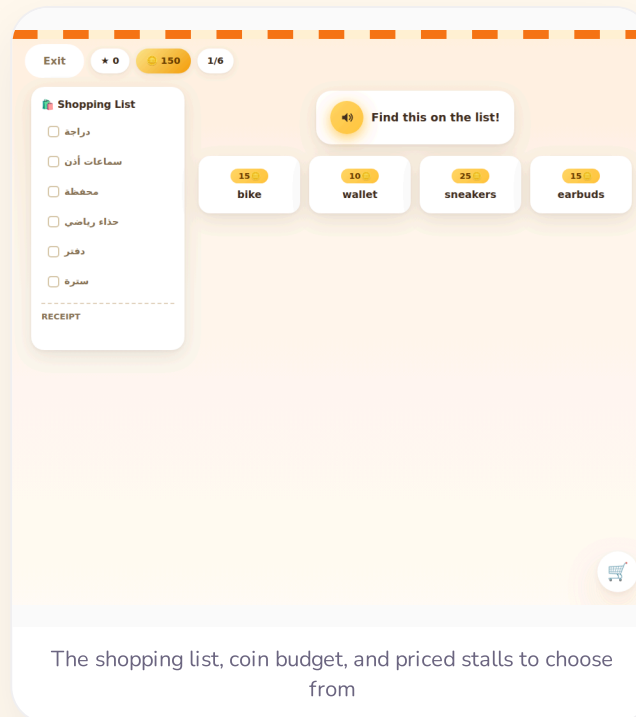

Bite the bullet — To finally do something difficult you've been avoiding.

A tip for home: the Hub isn't graded and has no quiz — it's a calm space for your child to browse freely. A two-minute look before bed, or right after finishing homework, is still genuinely valuable practice.

Squad Budget, this level's bonus game

A shopping-list budgeting game. Your child starts with a coin budget and must find and "buy" each item on an Arabic shopping list.

How to play

- 1 An Arabic shopping list appears on the left, and several priced market stalls appear on the right, each labeled in English.
- 2 Your child listens for the word Lumi says, then taps the matching stall to "buy" that item.
- 3 A correct purchase checks the item off the list, adds it to a running receipt, and deducts its price from the coin budget.
- 4 A wrong tap costs nothing — no coins are lost, they simply try a different stall.
- 5 By the end, the whole shopping list is checked off and the receipt shows everything "bought."
