Sample idioms your child will discover

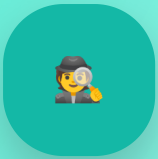

Once upon a time — The classic way storytellers begin a tale.

Blast from the past — Something that reminds you of an earlier time.

Long story short — A quick way to summarize something long.

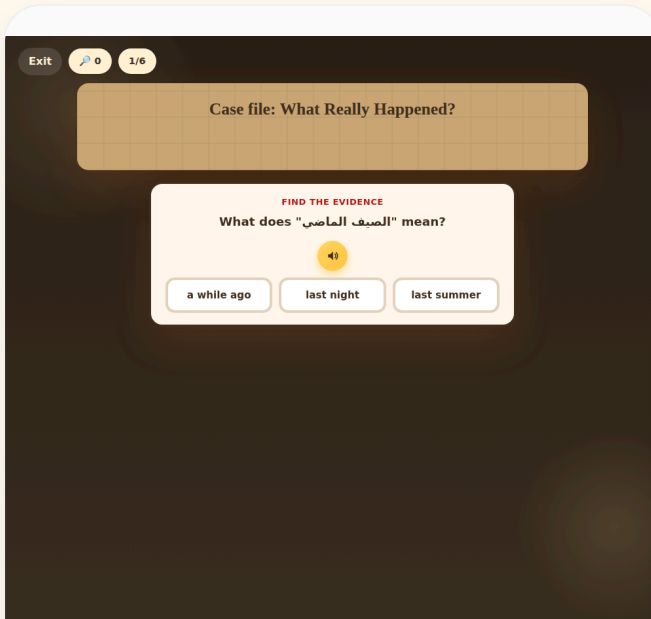

It's history now — Something happened and it's over now.

A tip for home: the Hub isn't graded and has no quiz — it's a calm space for your child to browse freely. A two-minute look before bed, or right after finishing homework, is still genuinely valuable practice.

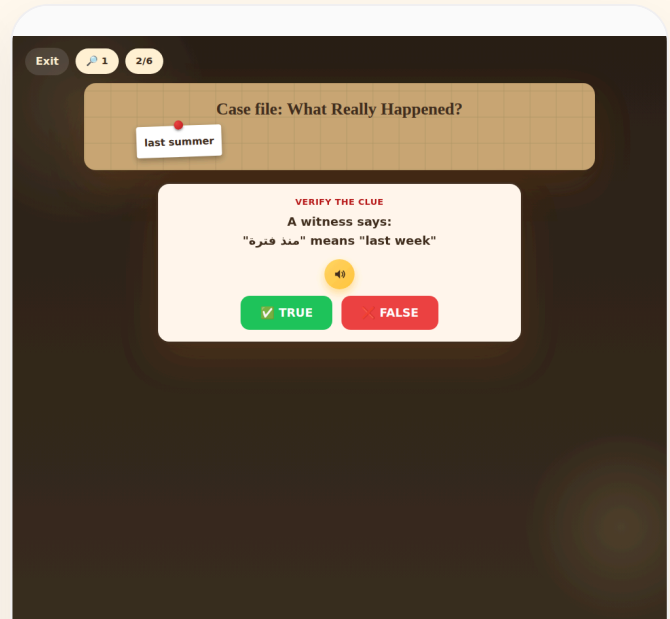

Story Detective, this level's bonus game

A detective mystery theme. Rounds alternate between finding the right English meaning of an Arabic word, and judging whether a "witness" got a translation right.

A "find the evidence" round — choosing the correct meaning

A "verify the clue" round — judging True or False

How to play

- 1 **Find the evidence rounds:** an Arabic word or phrase is shown with three English options — tap the one that matches its meaning.
- 2 **Verify the clue rounds:** a "witness" claims an Arabic phrase means a certain English word — your child judges True or False.
- 3 Every confirmed answer gets pinned to the case file at the top of the screen as evidence.
- 4 The rounds alternate automatically between the two modes across all 6 rounds.
- 5 By the end, the full case file of vocabulary evidence is revealed — "mystery solved!"
