Hi, I'm **Sara**! Ready to explore school, family, and daily life with me?

The world widens here: extended family, telling time, daily routines morning and night, and the first steps into pointing things out with this/that/these/those.

By the end of this level, your child can:

- Greet people and introduce themselves properly
- Name extended family (aunt, uncle, cousin, twins)
- Use he/she and possessives (my, your, his, her, our, their)
- Follow classroom commands and count to 100
- Name the months and tell the time
- Describe their daily morning and evening routine
- Point things out with this/that/these/those
- Make plurals correctly (s/es)

Sample vocabulary

aunt عمّة

cousin ابن العم

classroom الصف

birthday عيد ميلاد

breakfast فطور

homework واجب

guests ضيوف

curfew حظر تجول

Grammar

19 distinct structures across the level — from possessives and he/she through classroom commands to plurals, building real everyday-life sentences.

Spiral-repetition vocabulary

NEW

The Lesson 20 review now revisits every earlier theme with 6 genuinely new, slightly harder words layered in — the review word count grew from 38 to 44 words as a result.

Real scene illustrations

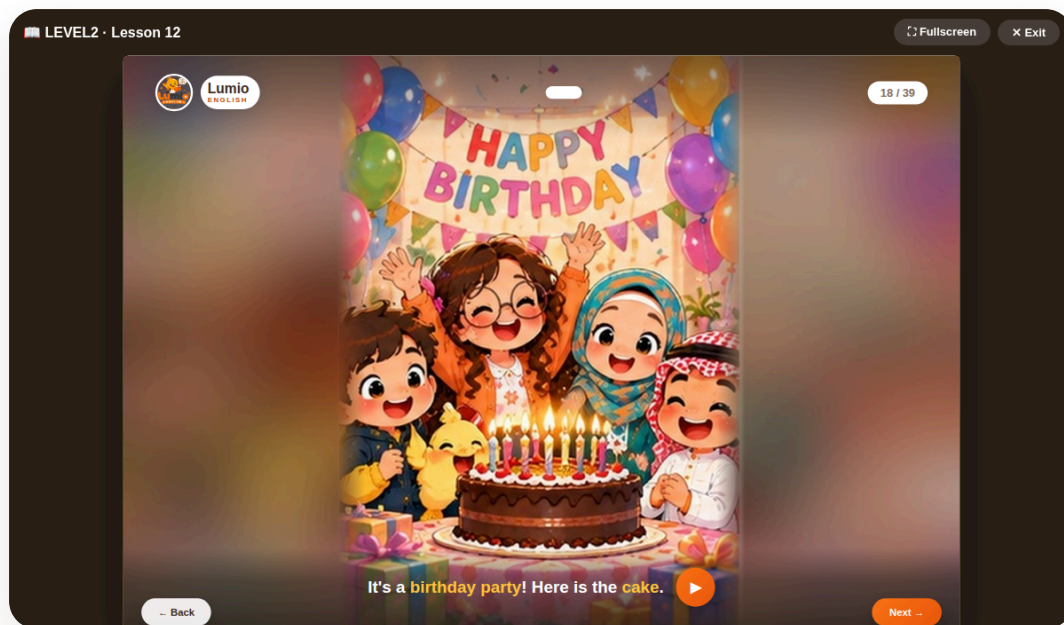

NEW

56 new scenes across this level show Lumio's own characters acting out each lesson's most important words in a real, connected moment — the sentence the words appear in is shown right alongside the scene, with the key words highlighted.

Themed lesson backgrounds

NEW

Every lesson now has its own illustrated backdrop matching its topic — a warm family living room for "My Family Tree", a birthday party scene for "My Birthday" — instead of one flat background repeating across the entire level.

A real scene from "My Birthday" — the character cast celebrating, with the key words highlighted below

A tip for home: the Hub isn't graded and has no quiz -- it's a calm space for your child to browse freely. A two-minute look before bed, or right after finishing homework, is still genuinely valuable practice.

What it looks like to explore

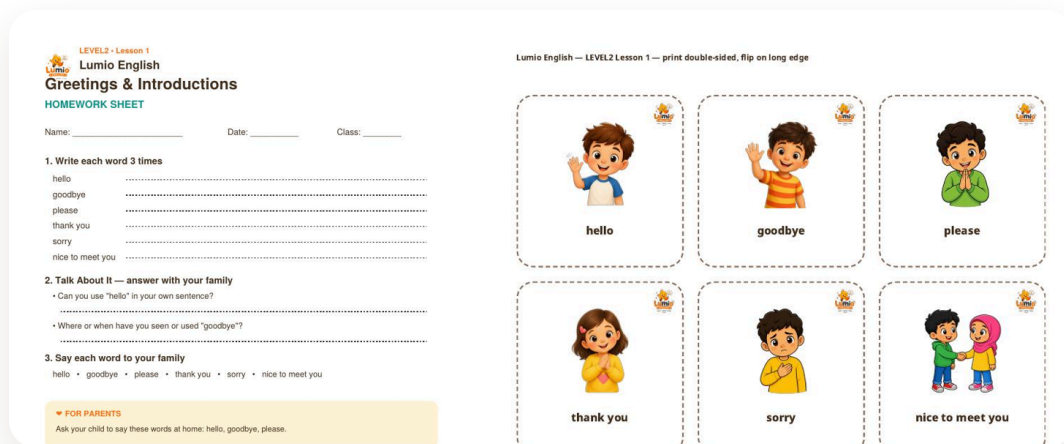

Each theme opens as a full grid of picture cards -- every word shown with a real illustration and its Arabic translation, ready for your child to tap and hear at their own pace.

The "Extended Family" theme, fully browsable with every word illustrated

A printable page for every single lesson

Beyond the screen, every one of Level 2's 20 lessons comes with its own homework sheet and flashcard set, ready to print.

A real homework sheet and flashcard set from the same lesson

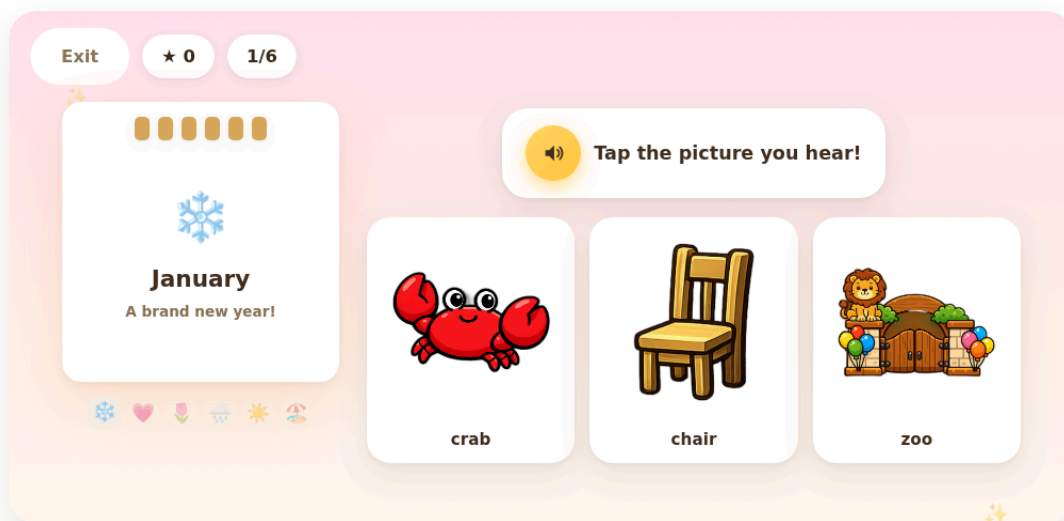

Who they're for, and why

Writing practice: your child still traces and copies each word by hand, but the second task has changed -- instead of drawing, it's now "Talk About It", an open question like "Can you use 'hello' in your own sentence?" This is a deliberate bridge toward Level 3, where full sentence-writing begins, easing your child from copying words into thinking in them.

Flashcards: every card shows the picture and English word on one side and the Arabic translation on the other. That means either parent can quiz their child at home, even without speaking English themselves -- a two-minute flip-through before bed is real, screen-free repetition that helps new words genuinely stick.

Twelve Months Calendar, this level's bonus game

A calendar-book theme built around this level's real phonics focus: Lumi says a specific word from the letter sounds your child has already learned, and each correct answer reveals a new month's page, building a full year of the calendar one page at a time.

January revealed on the calendar page, with three phonics-group words to choose from

How to play

1. Lumi says a specific word built from phonics sounds your child has already covered in this level, and three labeled pictures appear.
2. Your child taps the picture whose word matches what they heard, reinforcing the letter sounds behind it, not just the picture. A wrong tap costs nothing -- they simply try another option.
3. A few rounds also use this lesson's own vocabulary and example sentences, covering words and simple sentences too.
4. A correct answer reveals the next month on the calendar page; by the end of all 6 rounds, a good run earns a special "Wonderful!" celebration as the book fills up.
